-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 2 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitations related to the minimum seat width and maximum seat depth for dining room chairs, is vague and indefinite, and does not define a proper limitation.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,4,7,9, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Pass.

Figures 1-4 show structure as claimed, including a pair of “seat” panels 11 adapted to cover side portions of the seat, a chasuble 12-16 which covers the back and seat and includes wrapping means 19 for securing the chasuble to the back. A skirt 17 is also provided.

Claims 1-4,7,15 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Siebelist.

Figures 1-6 show a slipcover as claimed, including a pair of seat panels 22 covering the sides of the seat, a chasuble 11 extending over the backrest, upper seat

surface and front seat surface, and including slits for the armrests. The chasuble is connected along its sides to the seat panels (fig. 4). A skirt 11 is also provided.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pass in view of English.

To have provided the "waist" of the chasuble of Pass with a securing band to further attach the cover to the seat, would have been an obvious modification to one with ordinary skill in the art, as such is suggested by English (fig. 3), thereby improving the securement thereof.

Claims 5,6,10,11,13,14 and 17-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Levi, Bloomfield, Trubitz, Kotowicz, Sugarman, and Coggin show various features of the invention.
